

COVID – 19 UPDATE

Message 15 | April 15, 2021

COVID rollercoaster – what a ride!

This pandemic has created a rollercoaster of changing emotions alternating between making us feel sad, anxious, even angry, or making us feel happy, excited, and relieved.

Ups and downs are a constant with this ride; belt yourself in, stay seated, keep your arms and legs inside the car, and hang on for the ride.

These new COVID-19 variants have added another loop to the ride.

Stay up to date and continue to **w**atch your distance, **w**ash your hands frequently, and **w**ear a mask correctly.
