

Road Closure & Construction Notice

The Town of Hanover would like to advise that County Road 28 Reconstruction from 10th Street to 14th Street will commence August 5th. This phase of reconstruction will involve the installation of new sanitary and storm sewers, as well as general road and intersection improvements.

Construction will take place from 7:00am to 5:30pm, Monday to Friday, from August 5th until the beginning of November. The roadway will be closed during the entire construction timeframe. Detours will be set up to allow traffic to access local businesses. We ask that all businesses within the construction zone use alternate entrances from 10th Street that will remain open throughout construction.

We appreciate your understanding and cooperation. If you would like to discuss this project, please contact the undersigned.
