

Hanover Cemetery Columbarium

A cemetery provides a place to permanently memorialize each person interred there.

With the ever increasing number of families choosing cremation, the Hanover Cemetery is pleased to provide an interment alternative.

This above ground interment, practiced in Europe for centuries is an age-old custom. Our granite Columbarium contains companion niches that face both the cemetery to the west and the sunrise over the rolling hills and valley lands to the east. Each niche provides for the remains of two individuals. Single or companion inscriptions require only one niche front.
