

BACKGROUND

The Town of Hanover has completed a Municipal Class Environmental Assessment (Class EA Study) Schedule B planning process under the *Environmental Assessment Act* to determine the preferred method of improvement to four trail bridges along the south line section of the Hanover Community Trails System, in the Town of Hanover in Grey County. **The preferred solution is to replace bridges 1 and 2 with single lane structures, rehabilitate bridge 3 and replace bridge 4, re-using the existing truss span.** The findings of the Class EA process have been documented in the Project File Report.

PROJECT CONTACTS

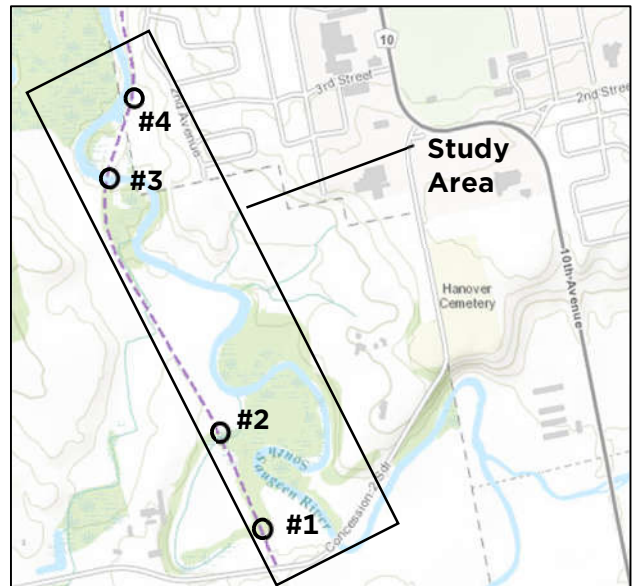

The Project File Report will be available on the Town's website at <https://www.hanover.ca/parks-and-trails>. Interested persons may provide written comments to our project team by **July 16, 2022**. All comments and concerns should be sent directly to Sherri Walden at the Town of Hanover. Project contact information is below:

In addition, requests may be made to the Ministry of the Environment, Conservation and Parks for an order requiring a higher level of study (i.e. requiring an individual/comprehensive EA approval before being able to proceed), or that conditions be imposed (e.g. require further studies), only on the grounds that the requested order may prevent, mitigate or remedy adverse impacts on constitutionally protected Aboriginal and treaty rights. Requests on other grounds will not be considered. Requests should include the requester contact information and full name.

Requests should specify what kind of order is being requested (request for conditions or a request for an individual/comprehensive environmental assessment), how an order may prevent, mitigate or remedy potential adverse impacts on Aboriginal and treaty rights, and any information in support of the statements in the request. This will ensure that the ministry is able to efficiently begin reviewing the request.

The request should be sent in writing or by email to both contacts below:
